INDEPENDENT AUDITORS' REPORT

To the President and Village Board
Village of Broadview
Broadview, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Broadview, Illinois, as of and for the year ended April 30, 2013, and the related notes to the financial statements, which collectively comprise the Village of Broadview's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Pension Fund, which represent 52 percent, 54 percent and 46 percent, respectively, of the assets, net position/fund balances, and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Police Pension Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village of Broadview's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Village of Broadview's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the President and Village Board
Village of Broadview

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Broadview, Illinois, as of April 30, 2013 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note I, the Village of Broadview adopted the provisions of GASB Statement No. 63, *Financial Reporting for Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, effective May 1, 2012. Our opinions is not modified with respect to this matter.

Other Matters

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Broadview's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the table of contents is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Broadview's basic financial statements. The other information as listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Oak Brook, Illinois

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

The discussion and analysis of Village of Broadview's (the "village") financial performance provides an overall review of the village's financial activities for the year ended April 30, 2013. The management of the village encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the village's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights - Government-wide Financial Statements

- > The Village of Broadview's net position increased by \$6.2 million or 43.1% compared to the prior year. The Village ended the fiscal year with net position of \$20.5 million.
- > During the year, revenues of \$23.6 million exceeded expenses of \$17.4 million, resulting in an increase in net position of \$6.2 million. Net position of business type activities increased by \$0.8 million or 8.8%, while net position of governmental activities increased by \$5.4 million or 101.9%.
- > General revenues accounted for \$17.2 million in revenue or 84% of all governmental revenues. Program specific revenues in the form of charges for services and fees, and grants accounted for \$3.3 million or 16% of total governmental revenues.
- > The governmental activities had \$15.1 million in expenses related to government activities. However, only \$3.3 million of these expenses were offset by program specific charges and grants.
- > At the end of the current fiscal year, unassigned fund balance for the General Fund was in a deficit position of \$2.0 million.
- > The Village's total debt decreased by \$3.2 million during the current year to \$23.7 million.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the village's basic financial statements. The basic financial statements are comprised of three components:

- > Government-wide financial statements,
- > Fund financial statements, and
- > Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the village's finances, in a manner similar to a private-sector business, and are reported using the accrual basis of accounting and economic resources measurement focus.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

The statement of net position presents information on all of the village's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the village is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be divided into two types of activities: governmental and business-type. Governmental activities present the functions of the village that are principally supported by taxes and intergovernmental revenues. Business-type activities present the functions that are intended to recover all or a significant portion of their costs through user fees and charges. The village's governmental activities include functions like general government, public safety, highways, and streets and sanitation. The village's business-type activities include water and sewerage services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the village can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the village's general government operations and the basic services it provides. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources; as well as, on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a village's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

The village maintains five major individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, 22nd / 17th Avenue TIF Redevelopment, Roosevelt Road TIF, Debt Service and Capital Project Funds all of which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining schedules elsewhere in this report. The village adopts an annual budget for each of the major funds listed above. A budgetary comparison statement has been provided for each major fund to demonstrate compliance with this budget.

Proprietary funds

Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The village's proprietary fund presents the activities and balances in Water and Sewerage Fund, which is considered to be a major fund, using the accrual basis of accounting and economic resources measurement focus. Proprietary funds provide the same type of information as the government-wide financial statements, but in greater detail. The proprietary funds reflect the private-sector type operation, where the fee for service typically covers all or most of the cost of operation and maintenance including depreciation.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the village. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the village's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the village's contributions and funding progress of the Illinois Municipal Retirement Fund, Police Pension Fund, Firefighters' Pension Fund and Other Post-Employment Benefits; as well as, budget to actual comparisons of the funds. Supplementary schedules include combining and individual fund schedules of all non-major funds and Fiduciary Funds.

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net results of activities – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for capital – which will increase current assets and long-term debt.

Spending borrowed proceeds on new capital – which will: (a) reduce current assets and increase capital assets; and, (b) increase capital assets and long-term debt, which will not change the net position net investment in capital assets.

Spending of non-borrowed current assets on new capital – which will: (a) reduce current assets and increase capital assets; and, (b) will reduce unrestricted net position and increase net investment in capital assets.

Principal payment on debt – which will: (a) reduce current assets and reduce long-term debt; and, (b) reduce unrestricted net position and increase net investment in capital assets.

Reduction of capital assets through depreciation – which will reduce capital assets and net position net investment in capital assets.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

Current Year Impacts

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the village, total net position increased by \$6.2 million from \$14.3 million to \$20.5 million. The village's total assets equal \$52.1 million while total liabilities equal \$31.6 million.

The governmental activities show net position of \$10.7 million, which is reduced as the result of the Village sponsoring a Tax Increment Financing (TIF) District in 1993, 22nd and 17th Avenue Redevelopment Village Square Shopping Center. As an inducement for developers to redevelop this site, the Village issued TIF bonds in 1993 which were refinanced in 1999 to achieve a better interest rate. The outstanding balance of these bonds as of April 30, 2013, is \$8.5 million. In addition, there was a \$5.0 million developer note issued with a stated interest rate of 5%. In the fiscal year ended April 30, 2007, one year of interest on the note was deferred and capitalized or \$250,000 was added to the principal balance of the developer note. This brings the total TIF related debt to \$13.8 million. These bonds and developer note did not produce a capital asset that is owned by the Village, and even though the Village is not obligated for the retirement of the bond debt as it is payable solely from the incremental taxes generated by the TIF, the bonds are nonetheless, required to be reported as a liability of the Village. If sufficient funds are not available in the TIF to pay the debt at the end of the useful life of the TIF in 2016, then the obligations would be cancelled and the Village would report a gain on the cancellation of said debt. Therefore, the deficit will be reduced and eliminated over the remaining life of the TIF. Since the TIF debt distorts the financial position in net position, if the TIF debt was removed the net position would be a positive \$24.5 million at year end. However, all \$13.8 million of the net position of the governmental activities would be restricted for debt service, capital projects and investment in capital assets and not available for funding current Village operations.

The Village's current and other assets increased from the prior fiscal year by \$1.8 million. The increase was due in part to a \$1.2 million increase in cash and investments. The increase in cash and investments resulted from the Village's continuing efforts to reduce and/or contain cost within its ongoing operations.

Capital assets remained consistent with prior year mainly due to the recording of the current year's depreciation expense offset by new capital improvements. Capital asset purchases were held to a minimum due to the Village's poor financial condition.

Total liabilities had decreased by \$3.7 million at the end of the current year when compared to that of the prior year.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS

As of and for the Year Ended April 30, 2013

The amounts due the Police and Fire Pension Plans are a result of the Village's failure to distribute real estate and replacement taxes collected on behalf of the respective pension plans. These funds were used to pay for operational expenditures within the General Corporate Fund during the period from approximately January 2002 to May 2004. The Broadview Firefighters Pension Plan entered into an informal agreement with the Village in July 2004, in which the amounts due will be fully satisfied by the year 2015. The Broadview Police Pension Plan signed a formal agreement with the Village in May 2007 for amounts due that will be paid in full by the year 2015.

The outstanding balances due to the Broadview Police and Fire Pension Plans at April 30, 2013, are \$434,805 and \$466,027, respectively. All taxes collected on behalf of the pension plans during the current fiscal year end have been remitted on a timely basis. In addition, all principal and interest payments have been made when due, in accordance with the agreements.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

Normal Impacts

There are eight basic (normal) impacts that will affect the comparability of the revenues and expenses on the Statement of Activities summary presentation.

Revenues

Economic condition – which can reflect a declining, stable or growing economic environment, and has substantial impact on state sales, replacement and hotel/motel tax revenue; as well as, public spending habits for building permits, elective user fees, and volumes of consumption.

Increase/decrease in Village approved rates – while certain tax rates are set by statute, the village has significant authority to impose and periodically increase/decrease rates (water, home rule sales tax, etc.).

Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring grants are less predictable and often distorting in their impact on year to year comparisons.

Market impacts on investment income – the village's investments may be affected by market conditions causing investment income to increase/decrease.

Expenses

Introduction of new programs – within the functional expense categories (general government, public safety, public works, and community development), individual programs may be added or deleted to meet changing community needs.

Change in authorized personnel – changes in service demand may cause the village to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the largest operating cost of the village.

Salary increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the village to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the village is a major consumer of certain commodities such as supplies, fuel, and parts. Some functions may experience unusual commodity specific increases.

Current Year Impacts

The Governmental Activities revenues increased from prior year by \$2.9 million to \$20.5 million. A \$1.5 million increase in property tax receipts was due primarily to an increase in incremental property taxes generated by the Village's TIFs. Please refer to the table on page 8 for details of revenue categories.

Governmental Activities expenditures increased by \$1.4 million in the current year as compared to that of the prior year, which was mainly attributable to higher expenditures in general government and public safety expenses (up \$1.1 and \$0.2 million respectively).

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

Governmental Activities

Revenue Source - Governmental Activities

Revenues

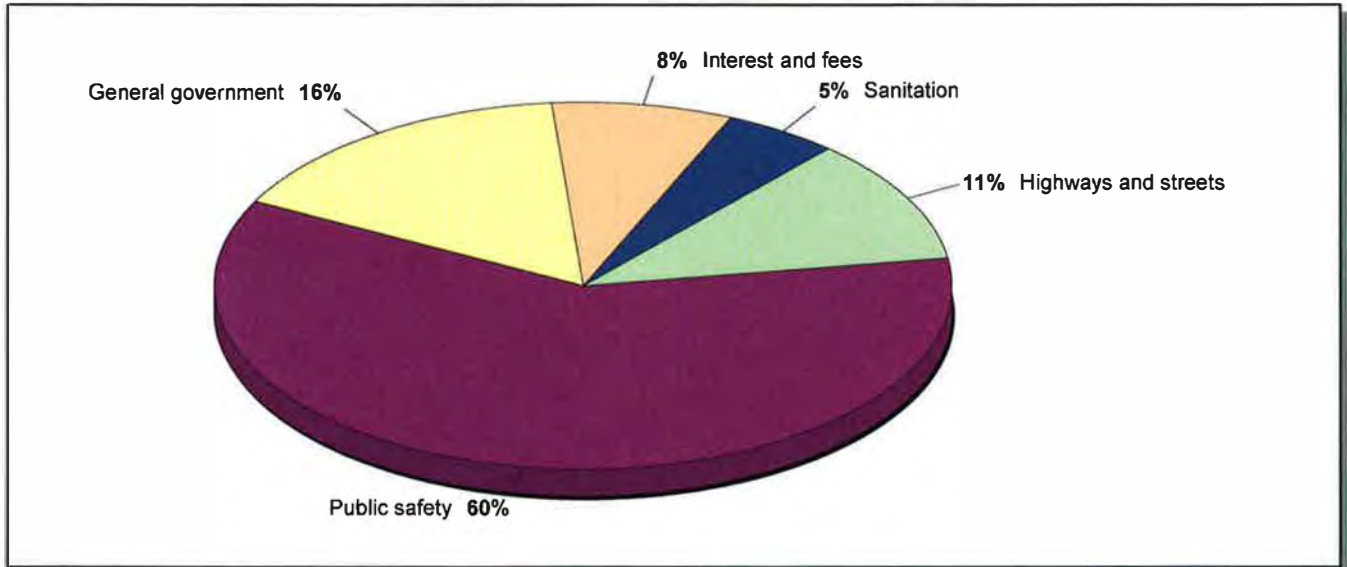

A graphic summary of the FY 2013 Governmental Activities revenues by category for the Village of Broadview is shown above. Property Taxes and Other Taxes accounted for a combined 74% of the Village's revenue sources used to fund governmental activities. Annual receipts from property taxes increased \$1.5 million, or 17.8% from the prior year. The increase was due to the increase in equalized assessed value of the TIF property which consequently increased incremental property taxes generated by the Village's TIFs. Current year collections in Other Taxes, which include sales taxes, utility taxes, local use taxes and cablevision taxes, were comparable to the prior year. Total revenues from governmental activities increased \$2.9 million, or 16.5% from the prior year.

Operating revenues of the Village's business type activities (not shown as part of graph) increased by 6.9% over the prior year due primarily to increase in water rates and water supplied. Pricing of water is based on fees determined by the supplier of water. Sales of water (revenues) can be affected by climate, at times, with warmer and drier summers bringing higher demand.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

Expenses by Function -Governmental Activities

The chart as shown above graphically depicts the major expense categories of the Village of Broadview. The public safety category which includes the Law Enforcement, Fire and Emergency and Building Departments is substantially tax supported while their program charges cover approximately 17.1% of their expenses.

Operating expenses of the business type activities of the Village that includes the Water and Sewerage Department (not shown as part of graph) increased by \$0.3 million or 15.0% from the prior year primarily related to increased water prices and purchases.

Financial Analysis of the village's Funds

As of the end of the current fiscal year, the Village of Broadview's governmental funds reported a combined (major & non major) ending fund balance of \$22.5 million, an increase of \$1.7 million over fiscal year 2012. A significant portion of the net increase was attributable to higher tax receipts within in the 22nd and 17th Avenue TIF Redevelopment Fund which increased its fund balance from \$10.4 million to \$11.4 million.

Other Financing Sources and Uses

An operating transfer of approximately \$425,000 was made from the General Corporate Fund to the IMRF Fund to cover Social Security Tax Expenses. An operating transfer of approximately \$141,000 was made from the General Corporate Fund to the Debt Service Fund to cover an interest payment on one of the Village's outstanding bonds.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

General Fund Budgetary Highlights

The Village's budget for the General Fund anticipated that revenues would exceed expenditures by \$0.8 million, and that the net impact after other financing sources (uses) would result in an overall net increase of \$0.1 million to the fund balance. The actual result was an increase of \$0.9 million, a favorable variance of \$0.6 million.

Annual revenues exceeded the budgeted amount by approximately \$0.3 million, or 2.2%. The favorable variance was primarily due to increases in property taxes and charges for services.

The General Fund total actual expenditures exceeded the budgeted expenditures by approximately \$0.1 million. Unfavorable budget variances experienced by the various departments caused this increase.

For additional Details, please see the Budgetary Comparison Schedules for the General Fund in this report.

Capital Assets and Debt Administration

Capital assets

The Village of Broadview's investment in capital assets for its governmental and business type activities as of April 30, 2013 was \$15.1 million (net of accumulated depreciation of \$16.8 million). This investment in capital assets includes land, buildings and improvements, distribution systems, vehicles, furniture and equipment and infrastructure. During the current fiscal year, there was controlled activity in the purchasing of capital assets due to limited resources. More detailed information about capital assets can be found in Note III C. of the basic financial statements.

Factors Bearing on the village's Future

The Village's diligent efforts to contain spending, while maintaining our level of village services, has resulted in a positive shift to reduce the deficit General Fund balance position. However, the Village continues a delicate balancing act in our goal of restoring financial stability in the slowly recovering economy. This ongoing process will take years of continued fiscal restraints on spending to conserve limited resources, while yet balancing the needs of the community with the ever present need to enhance revenue streams to meet continual service demands.

22nd & 17th Ave TIF Redevelopment Area:

The Broadview Village Square shopping center (TIF redevelopment area) is near full occupancy. The incremental property tax revenues generated by the TIF area are currently adequate to fully meet the long-term debt obligation associated with the acquisition of the redevelopment area. This situation enables the Village to recoup and allocate sales tax revenues toward public safety and other governmental activities.

Roosevelt Road TIF Redevelopment Area:

- > 1940 Roosevelt Road - Dunkin Donuts / Baskin Robbins with drive-thru facilities has been in operation since December 2007. The Village entered into a redevelopment agreement with the owner to rebate actual TIF increment from the redevelopment and the Village share of sales tax up to a target amount.
- > The Village of Broadview has the design and engineering phase of a major streetscape improvement project along most of Roosevelt Road. Improvements will include the widening of parking lanes and the replacement of street lights, sidewalks, and pedestrian crossways. Pending IDOT review and approval, construction activities are anticipated to start in Fiscal Year 2014.
- > The Village is aggressively pursuing various redevelopment opportunities which may utilize Village owned properties along Roosevelt Road.

VILLAGE OF BROADVIEW

MANAGEMENT'S DISCUSSION AND ANALYSIS As of and for the Year Ended April 30, 2013

19th Street TIF Redevelopment Area:

The Village Board of Trustees approved the 19th Street Tax Increment Financing (TIF) District redevelopment plan, south of Roosevelt Road on 17th Avenue in May 2008. In the February 2010, Chase Bank, completed construction of a branch office facility and opened for business. In September 2013, the Village approved final phase of a new building development, which includes an O'Reilly Automotive Store, at a site within the TIF district that was formerly occupied by the Broadview bowling alley.

17th Street North TIF Redevelopment Area:

The Village Board of Trustees approved the 17th Avenue Tax Increment Financing (TIF) District redevelopment plan, north of Roosevelt Road in September 2007. The Village has been seeking a developer for the Village owned property along 17th Avenue. Several developers have expressed some interest, and the Village plans to solicit proposals from multiple developers in the upcoming fiscal years.

Requests for Information

This financial report is designed to provide the village's citizens, taxpayers, and creditors with a general overview of the village's finances and to demonstrate the village's accountability for the money it receives. If you have questions about this report, need additional financial information, or would like a copy of the financial statements for the Police Pension Fund or Firefighters' Pension Fund, contact the Village hall:

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

As of April 30, 2013

Total Fund Balances - Governmental Funds	\$ 22,451,255
--	---------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds.	8,918,148
--	-----------

Some receivables that are not currently available are reported as deferred revenues in the fund financial statements but are recognized as revenue when earned in the government-wide statements.	761,312
---	---------

Property held for resale in the governmental funds are not current financial resources and therefore, are not reported in the fund financial statements.	1,647,176
--	-----------

An asset is reported on the Statement of Net Position due to the Village's overfunding of its annual required contribution to the Police and Firefighters' Pensions.	851,131
--	---------

Some liabilities, including long-term debt, are not due and payable in the current period and therefore, are not reported in the funds.

Bonds and loans payable	(22,918,631)
Compensated absences	(142,074)
Accrued interest	(401,322)
Unamortized debt discount, premium, and issue costs	84,583
Net OPEB obligation	<u>(569,698)</u>

NET POSITION OF GOVERNMENTAL ACTIVITIES	<u>\$ 10,681,880</u>

VILLAGE OF BROADVIEW

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended April 30, 2013

Net change in fund balances - total governmental funds	\$ 1,702,846
--	--------------

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements	895,618
Depreciation is reported in the government-wide financial statements	(541,041)

Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.	339,750
---	---------

Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Debt issued	(935,000)
Principal repaid	4,435,000

Some of the bonds issued in the current year are accretion bonds. Accretion of the bonds during the year increases the carrying value of the bonds and will be repaid using future year resources. The current year's accretion is charged to interest expense in the Statement of Activities.	(15,817)
--	----------

Governmental funds report debt premiums, discounts and issuance costs as other financing sources (uses) or expenditures. However, in the statement of net position, these are deferred and reported as other assets or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense.	
Issuance costs	(36,722)
Premiums	10,379

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences	(13,061)
Net OPEB obligation	(309,207)
Accrued interest on debt	62,970

A decrease in the expense of the pension contribution is recognized in the entity-wide Statement of Net Position as a decrease in the net pension asset.	<u>(255,887)</u>
--	------------------

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u>\$ 5,339,828</u>

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Broadview, Illinois (the "village") was incorporated in 1914. The village is a non home-rule municipality, under the 1970 Illinois Constitution, located in Cook County, Illinois. The village operates under a President-Trustee form of government and provides the following services as authorized by its charter: public safety (police and fire protection), highways and streets, sanitation (water and sewer), health and social services, public improvements, planning and zoning, and general administrative services.

The accounting policies of the Village of Broadview, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the Village of Broadview. The reporting entity for the village consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable for the organization. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government.

A legally separate, tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) The primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Blended component units, although legally separate entities, are, in substance, part of the government's operations and are reported with similar funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the primary government.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Blended Component Units

The Police Pension Employees Retirement System (PPERS) is established for the village's police employees. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the village's President, one pension beneficiary elected by the membership, and two police employees elected by the membership constitute the pension board. The village and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund and the data for the component unit is included in the government's fiduciary fund financial statements.

Complete financial statements for the component unit may be obtained at the entity's administrative offices:

Police Pension Board
2350 South 25th Street
Broadview, Illinois

The Firefighters' Pension Employees Retirement System (FPERS) is established for the village's firefighters. FPERS functions for the benefit of these employees and is governed by a nine-member pension board. The village's President, Treasurer, Clerk, Attorney, and Fire Chief; one pension beneficiary elected by the membership; and three fire employees elected by the membership constitute the pension board. The village and the FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the village's firefighters because of the fiduciary nature of such activities. FPERS is reported as a pension trust fund and the data for the component unit is included in the government's fiduciary fund financial statements.

Complete financial statements for the component unit may be obtained at the entity's administrative offices:

Firefighters' Pension Board
2400 South 25th Street
Broadview, Illinois

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In June 2011, the GASB issued statement No. 63 - *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Previous financial reporting standards did not include guidance for these elements, which are distinct from assets and liabilities. The village implemented this standard effective May 1, 2012.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, net position/fund equity, revenues, and expenditure/expenses.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds and proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The village reports the following major governmental funds:

- General Fund - accounts for the village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- 22nd and 17th Avenue TIF Redevelopment Fund - is used to account for incremental real estate and sales tax revenues received from Village Square Tax Increment Financing District that are to be used for the development of the Redevelopment Project Area at 22nd Street and 17th Avenue.
- Roosevelt Road TIF Fund - is used to account for incremental real estate tax revenues received from Roosevelt Road Tax Increment Financing District that are to be used for the development of the Redevelopment Project Area at Roosevelt Road.
- Debt Service Fund - is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of principal and interest on long-term debt other than TIF or enterprise fund debt.
- Capital Projects Fund - is used to account for the resources accumulated and payments made for major capital purchased for governmental operations.

The village reports the following major enterprise fund:

- Water and Sewerage Fund - accounts for operations of the sewerage and collection systems, and the water distribution system.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The village reports the following nonmajor governmental funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Garbage
Motor Fuel Tax

Illinois Municipal Retirement
Community Development Block Grant
(CDBG)

Emergency Telephone System
17th Avenue North TIF Redevelopment

27th / 23rd Street TIF Redevelopment

In addition, the village reports the following fund types:

Pension (and other employee benefit) trust funds are used to account for and report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans.

Police Pension Fund
Firefighters' Pension Fund

Agency funds are used to account for and report assets held by the village in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

Special Assessment

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Government-Wide Financial Statements (cont.)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period except for state income taxes. State income taxes received within 120 days will be considered as available. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred revenues. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the village is entitled the resources and the amounts are available. Amounts owed to the village which are not available are recorded as receivables and deferred revenues. Amounts received prior to the entitlement period are also recorded as deferred revenues.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

The village reports deferred revenues on its governmental funds balance sheet. Deferred revenues arise from taxes levied in the current year which are for subsequent year's operations. For governmental fund financial statements, deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received before the village has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the village has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewerage Fund are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Illinois Statutes authorize the village to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

Pension funds may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, and the Illinois insurance company general and separate accounts, mutual funds meeting certain requirements, equity securities, and corporate bonds meeting certain requirements. Pension funds with net position in excess of \$10,000,000 and an appointed investment advisor may invest an additional portion of its assets in common and preferred stocks and mutual funds, that meet certain requirements. The police pension fund's investment policy allows investments in all of the above listed accounts, but does exclude any repurchase agreements. The firefighters' pension fund allows funds to be invested in any type of security authorized by the Illinois Pension Code.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Additional restrictions may arise from local charters, ordinances, resolutions and grant resolutions.

Certain deposits of the 22nd and 17th Avenue Tax Increment Financing District are classified as restricted assets because their use is restricted based on the Redevelopment Agreement for the Tax Increment Financing District.

The village and pensions have adopted an investment policy. That policy follows the state statute for allowable investments.

Interest Rate Risk

The village and pension's formal investment policy states the portfolio should provide a comparable rate of return during a market/economic environment of stable interest rates. Portfolio performance should be compared to benchmarks with similar maturity, liquidity and credit quality as the portfolio. The village set an investment bank's 1-3 year Governmental Bond Index as its initial benchmark. Unless matched to a specific cash flow, the Village will not directly invest in securities maturing more than two years from the date of purchase. Reserve funds may be invested in securities exceeding two years if the maturity of such investments are made to coincide as nearly as practicable with the expected use of the funds.

The pensions' investment policies seek to ensure preservation of capital in the overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The Police Pension's investment policy limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities. The Firefighters' Pension's policy does not limit investment maturities except as part of statutory requirements, as a means of managing its exposure to fair value losses arising from increasing interest rates. Over a full business cycle (3-5 years) it is the goal of the Firefighters' Pension to get a return on investments that meets or exceeds the rate of 8%. The portfolio will be managed with an average duration ranging from one to ten years. However, all of the policies require the village's and pensions' investment portfolios to be sufficiently liquid to enable the village and pensions to meet all operating requirements as they come due.

Credit Risk

State Statutes limit the investments in commercial paper to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The village's and pension's investment policies authorize investments in any type of security allowed for in Illinois statutes regarding the investment of public funds. The Police Pension's investment policy prescribes to the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Concentration of Credit Risk

The village's and pensions' investment policies require diversification of the investment portfolio to minimize risk of loss resulting from over-concentration in a particular type of security, risk factor, issuer, or maturity.

The Police Pension does not have a formal written policy with regards to concentration credit risk for investments. At April 30, 2013, the Police Pension Fund has over 5% of net plan assets invested in various agency securities as indicated in the table in Note III A. Agency investments represent a large portion of the portfolio; however, the investments are diversified by maturity date and as mentioned earlier are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government, they are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation.

The Firefighter's investment policy has a preferred target that not less than 55 percent of its portfolio be in fixed income securities and up to 45 percent may be invested in qualified equity securities.

Custodial Credit Risk - Deposits

The village's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured with collateralization pledged by the applicable financial institution to the extent of 100% of the value of the deposit. The Police Pension Fund's investment policy requires pledging of collateral with a fair value of 100% of all bank balances in excess of federal depository insurance.

Custodial Credit Risk - Investments

With respect to investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The village's investment policy requires all securities to be held by a third party custodian designated by the Treasurer and evidenced by safekeeping receipts. The Firefighters' Pension's investment policy requires all investments to be registered in the name of the fund, however, it does not specifically address these risks.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investments could be sold.

Illinois Metropolitan Investment Fund (IMET) is an investment pool managed by its Board of Trustees, which allows governments within the State to pool their funds for investment purposes. IMET is not registered with the SEC as investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. It is subject to the State of Illinois' regulations. Investments in IMET are valued at IMET's share price, the price for which the investments could be sold.

See Note III. A. for further information.

2. Receivables

Property taxes for levy year 2012 attaches as an enforceable lien on January 1, 2012, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). The 2013 tax levy, which attached as an enforceable lien on the property as of January 1, 2013, has not been recorded as a receivable as of April 30, 2013, as the tax has not yet been levied by the village and will not be levied until December 2013, and therefore, the levy is not measurable at April 30, 2013.

Tax bills for levy year 2013 are prepared by Cook County and issued on or about February 1, and September 1, and are payable in two installments, on or about March 1, and October 1, or within 30 days of the tax bills being issued.

The county collects such taxes and remits them periodically. The 2012 property tax levy is recognized as a receivable and deferral in fiscal 2013, net the allowance for uncollectible. As the taxes become available to finance current expenditures, they are recognized as revenues. At April 30, 2013, the property taxes receivable and deferred tax revenue consisted of the estimated amount collectible from the 2012 levy.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days (\$36,404) comprise the trade accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 1 percent (\$97,360) of outstanding property taxes at April 30, 2013.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

2. Receivables (cont.)

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a nonspendable fund balance account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation or by a restricted fund balance account, if the funds will ultimately be restricted when the advance is repaid.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$1,500 for general capital assets and \$1,500 for infrastructure assets, and an estimated useful life in excess of 1 year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

5. Capital Assets (cont.)

Government-Wide Statements (cont.)

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net position. Depreciation and amortization is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	50 Years
Land Improvements	20 Years
Machinery and Equipment	5-20 Years
Infrastructure	20-50 Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Property Held for Resale

The village's property held for resale includes land that is being held for sale for future development of the village. The village reevaluates the value of the property held for resale on an annual basis. Based on current market conditions, the village determined that no adjustment to the value was necessary as of April 30, 2013.

7. Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

7. Compensated Absences (cont.)

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources.

8. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are deferred and amortized over the life of the issue using the effective interest method. Gains or losses on prior refundings are amortized over the remaining life of the old debt, or the life of the new debt, whichever is shorter. The balance at year end for both premiums/discounts and gains/losses, as applicable, is shown as an increase or decrease in the liability section of the statement of net position.

9. Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund equity is classified as fund balance. In accordance with Governmental Accounting Standards Board Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*, the village classifies governmental fund balance as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (ordinance) of the village. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the village that originally created the commitment.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications (cont.)

Fund Statements (cont.)

- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned through the following; 1) Formal action of the Village Board 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

See Note III. for further information.

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. Budget amounts are as originally adopted by the Board of Trustees. All annual appropriations lapse at fiscal year end.

Prior to April 30, the village finance director submits to the village Board a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to July 31, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year of the general fund and special revenue funds.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

A. BUDGETARY INFORMATION (cont.)

The village is authorized to change budgeted amounts within any fund; however, revision must be approved by two-thirds of the members of the village Board. No revisions can be made increasing the budget unless funding is available for the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The appropriated budget is prepared by fund, function, and department. The village finance director is authorized to transfer budget amounts between department within any fund; however, the village Board must approve revisions that alter the total expenditures of any fund.

B. EXCESS EXPENDITURES OVER APPROPRIATIONS

Funds	Budgeted Expenditures	Actual Expenditures	Excess Expenditures Over Budget
General	\$ 11,095,545	\$ 11,207,536	\$ 111,991
Garbage	437,000	682,800	245,800
Community Development Block Grant (CDBG)	88,000	107,824	19,824
27th / 23rd TIF Redevelopment	13,784	111,692	97,908
17th Avenue North TIF Redevelopment	4,284	11,325	7,041
Capital Projects	136,800	278,405	141,605

The village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the village's year-end budget to actual report.

C. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of April 30, 2013, the following individual funds held a deficit balance:

Fund	Amount	Reason
General	\$ 2,015,149	Prior operating expenditures exceeded available revenues or financing
Community Development Block Grant	36,315	Prior operating expenditures exceeded available revenues or financing

The General Fund is anticipated to be funded with future contributions or general tax revenues. The Community Development Block Grant deficit will be funded by future grant awards.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

D. LIMITATIONS ON THE VILLAGE'S TAX LEVY

Tax rate ceilings are established by Illinois state law under the Property Tax Extension Limitation Act (PTELA) and are subject to change only by the approval of the voters of the village. The tax rate ceilings are applied at the fund level.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the village's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the April 30, 2013 and April 30, 2012 tax levies were 0.1% and 4.1%, respectively.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The village's deposits and investments at year end were comprised of the following:

	Carrying Value	Statement Balances	Associated Risks
Cash on hand	\$ 2,700	\$ -	N/A
Deposits with financial institutions	15,152,681	15,089,067	Custodial Credit Risk - Deposits
Other investments	<u>53,379,902</u>	<u>53,402,200</u>	Interest rate risk; Credit risk; Concentration of credit risk; Custodial Credit Risk - Investments
 Total Deposits and Investments	 <u>\$ 68,535,283</u>	 <u>\$ 68,491,267</u>	
 Reconciliation to financial statements			
Per statement of net position			
Unrestricted cash and investments	\$ 14,916,292		
Restricted cash and investments	12,233,560		
Per statement of net position- fiduciary funds			
Pension - Cash	424,400		
Pension - Money markets	967,142		
Pension - State and local obligations	1,305,011		
Pension - U.S. Government securities	14,239,741		
Pension - Mutual funds	20,564,349		
Pension - Stocks	1,334,642		
Pension - Corporate Notes	2,535,490		
Agency - Cash	<u>14,656</u>		
 Total Deposits and Investments	 <u>\$ 68,535,283</u>		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts), \$250,000 for interest-bearing demand deposit accounts, and unlimited amounts for noninterest-bearing transaction accounts through December 31, 2012. On January 1, 2013, the temporary unlimited coverage for noninterest bearing transaction accounts expired. Therefore, demand deposit accounts (interest-bearing and noninterest-bearing) are insured for a total of \$250,000 beginning January 1, 2013. In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the village's deposits may not be returned to the village.

The village and pensions do not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The village and pensions do not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of April 30, 2013, the village's investments were rated as follows:

<u>Investment Type</u>	<u>Standard & Poors</u>	<u>Moody's Investors Services</u>
FFCB	AA+	Aaa
Corporate Notes	AA to A-	Aa2 to A3
State and Local Obligations	AA or Better	N/A
Illinois Funds	AAAm	N/A
Illinois Metropolitan Investment Fund	AA+	N/A
Dreyfus Cash Management Investor Shares Money Market Fund	AAAm	Aaa-mf

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

VILLAGE OF BROADVIEW

D. INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS

Interfund Receivables/Payables

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

Receivable Fund	Payable Fund	Amount
General	Nonmajor	\$ 36,476
Water	Nonmajor	<u>100,000</u>
Total - Fund Financial Statements		136,476
Less: Fund eliminations		<u>(36,476)</u>
Total Internal Balances - Government-Wide Statement of Net Position		<u><u>\$ 100,000</u></u>

All amounts are due within one year.

The principal purpose of these interfunds is because of shortfall in respective funds thus creating short-term interfund loans.

For the statement of net position, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated.

Advances

The following is a schedule of interfund advances:

Receivable Fund	Payable Fund	Amount	Amount Not Due Within One Year
Capital Projects	General	\$ 5,300,000	\$ 5,300,000
Agency	General	<u>300,000</u>	300,000
Total - Fund Financial Statements		5,600,000	
Less: Fund eliminations		(5,300,000)	
Less: Fiduciary fund eliminations (Due to agency fund)		<u>(300,000)</u>	
Total - Interfund Advances - Government-Wide Statement of Net Position		<u><u>\$ -</u></u>

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

D. INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS (cont.)

Advances (cont.)

The principal purpose of these interfunds is because of a shortfall in respective funds thus creating long-term interfund loans.

For the statement of net position, interfund advances which are owed within the governmental activities or business-type activities are netted and eliminated.

Transfers

The following is a schedule of interfund transfers:

<u>Fund Transferred To</u>	<u>Fund Transferred From</u>	<u>Amount</u>	<u>Principal Purpose</u>
Nonmajor	General	\$ 425,000	To reimburse for expenditures paid in the current year
Debt Service	General	140,486	To fund interest payment on debt
General	22nd/17th TIF	<u>494,764</u>	To reallocate incremental sales taxes
Total - Fund Financial Statements		1,060,250	
Less: Fund eliminations		<u>(1,060,250)</u>	
Total Transfers - Government-Wide Statement of Activities		<u>\$ -</u>	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

E. LONG-TERM OBLIGATIONS

Long-term obligations activity for the year ended April 30, 2013, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities					
Bonds and Notes Payable					
General obligation debt	\$ 9,983,860	\$ 950,817	\$ 1,885,000	\$ 9,049,677	\$ 1,935,000
Tax increment financing bonds	16,300,000	-	2,550,000	13,750,000	2,685,000
Unamortized premium	61,821	-	10,379	51,442	-
Sub-totals	<u>26,345,681</u>	<u>950,817</u>	<u>4,445,379</u>	<u>22,851,119</u>	<u>4,620,000</u>
Other Liabilities					
Compensated absences	129,013	406,853	393,792	142,074	123,611
IEPA Brownfields revolving loan	118,954	-	-	118,954	-
Net OPEB Obligation	<u>260,491</u>	<u>309,207</u>	<u>-</u>	<u>569,698</u>	<u>-</u>
Total Other Liabilities	<u>508,458</u>	<u>716,060</u>	<u>393,792</u>	<u>830,726</u>	<u>123,611</u>
Total Governmental Activities Long-Term Liabilities	<u>\$ 26,854,139</u>	<u>\$ 1,666,877</u>	<u>\$ 4,839,171</u>	<u>\$ 23,681,845</u>	<u>\$ 4,743,611</u>

The compensated absences are paid out of the fund that has the associated salary. The OPEB obligation is paid out of the General Fund.

The village is subject to the Illinois Municipal Code, which limits the amount of certain indebtedness to 8.625% of the most recent available equalized assessed valuation of the village. As of April 30, 2013, the statutory debt limit for the village was \$18,414,085, providing a debt margin of \$14,779,085.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the village. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. During the year, the Village issued a portion of the 2012 Bonds (\$725,536) at an average interest rate of 3.50% to current refund a portion of the 2003A and 2003B Bonds (\$706,186) at an average interest rate of 4.00%. The economic gain and difference in cash flow due to this current refunding is immaterial to the financial statements.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

E. LONG-TERM OBLIGATIONS (cont.)

Tax Increment Financing Bonds

Tax increment financing bonds are payable from incremental taxes derived from a separately created tax increment financing district.

Tax Increment Financing Bonds at April 30, 2013, consists of the following:

Governmental Activities

Tax Increment Financing Bonds	Date of Issue	Final Maturity	Interest Rates	Original Indebtedness	Balance April 30, 2013
Tax Increment Financing Bond Series of 1999	1999	4/30/2016	4.00% - 5.375%	\$ 33,695,000	\$ 8,500,000
Tax Increment Financing Bond Series of 2004 - Developer Note	2004	12/31/2017	5.00%	5,250,000	<u>5,250,000</u>
Total Governmental Activities Tax Increment Financing Bonds					<u>\$ 13,750,000</u>

The Village has pledged future revenues to repay \$38,695,000 in TIF Revenue bonds issued in 1999 and 2004. Proceeds from the bonds provided financing for the Village's economic development. The bonds are payable solely from revenues and are payable through the 2018 fiscal year. Annual principal and interest payments on the bonds are expected to require 100 percent of revenues. The total principal and interest remaining to be paid on the bonds is \$15,556,126. Principal and interest paid for the current year and total revenues were \$3,336,313 and \$4,820,197, respectively.

Debt service requirements to maturity are as follows:

Years	Governmental Activities Tax Increment Financing Bonds	
	Principal	Interest
2014	\$ 2,685,000	\$ 647,216
2015	2,830,000	499,000

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

F. IEPA BROWNSFIELD REVOLVING LOAN

In 2007, the village entered into an agreement with the IEPA to receive a \$300,000 revolving loan to fund cleanup activities at the former Broadview Quick Wash site.

According to the agreement, the village has two years to use the funds.

There are a number of provisions and covenants contained in the loan agreement. If the site is sold, leased, traded, or developed within 15 years of the agreement (until 2022), the village must repay between 0% and 80% of the proceeds. Otherwise, the village has no obligation to repay the loan. The village is in compliance with all significant provisions and covenants. However, as a conservative measure, the village has recorded a liability on its Statement of Net Position for 80% of the proceeds received. This obligation will be repaid from the Roosevelt Road TIF Fund.

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

Plan Descriptions

The village contributes to three defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is a single-employer pension plan. The benefits, benefits levels, employee contributions and employer contributions for the plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. The Police Pension Plan and the Firefighters' Pension Plan do issue separate reports on the pension plans. IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Illinois Municipal Retirement Fund

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. Effective January 1, 2011, IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate (average of the highest 48 consecutive months earnings during the last 10 years) of earnings for each year of credited service up to 15 years and 2% for each year thereafter. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service, or age 62 with 35 years of service are entitled to an annual retirement benefit as described above. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The village's contribution rate for 2012 was 10.21% of annual covered payroll which was equal to the annual required contribution rate.

Police Pension

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The village accounts for the plan as a pension trust fund.

At April 30, 2013, the Police Pension membership consisted of:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	28
Current employees:	
Vested	21
Non vested	4
	<hr/>
Total	<u>53</u>

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

As provided for in the Illinois Compiled Statutes, the Police Pension Fund provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police officer shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded by the year 2040. For the year ended April 30, 2013, the village's contribution was 37.23% of covered payroll. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrual liability for benefits.

Firefighters' Pension

Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The village accounts for the plan as a pension trust fund.

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

At April 30, 2013, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	42
Current employees:	
Vested	15
Non vested	<u>4</u>
Total	<u><u>61</u></u>

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Fund provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Participants contribute a fixed percentage of their base salary to the plans. At April 30, 2013, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the village's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded by the year 2040. For the year ended April 30, 2013, the village's contribution was 60.65% of covered payroll. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrual liability for benefits.

Summary of Significant Accounting Policies

Police and Firefighters' Pension Plans

Basis of Accounting. The financial statements of the pension fund are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The village's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments. Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

Funded Status and Funding Progress

The 's actuarial value of plan assets for the current year and related information is as follows:

	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Actuarial Valuation Date	December 31, 2012	May 1, 2012	May 1, 2012
Actuarial Valuation of Assets (a)	\$ 3,435,953	\$ 22,415,194	\$ 19,091,653
Actuarial Accrued Liability (AAL) - Entry Age (b)	\$ 3,858,535	\$ 30,850,265	\$ 31,419,700
Unfunded AAL (UAAL) (b - a)	\$ 422,582	\$ 8,435,071	\$ 12,328,047
Funded Ratio (a/b)	89 %	73 %	61 %
Covered Payroll (c)	1,456,497	1,968,530	1,597,869
UAAL as a Percentage of Covered Payroll ((b-a)/c)	29 %	429 %	772 %

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT

The village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

Public Entity Risk Pool

IMLRA

The village participates in the Illinois Municipal League Risk Management Association (IMLRA). IMLRA is an organization of municipalities and special districts in Northeastern Illinois, which has formed an association under the Illinois Intergovernmental Cooperation's Statute to pool its risk management needs. The agency administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

C. COMMITMENTS AND CONTINGENCIES

From time to time, the village is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the village's financial position or results of operations.

Other Commitments

In 2006, the village issued a municipal revenue obligation as part of a development agreement. The amount of the obligation was \$300,000, and is payable to the developer solely from property and sales tax increments collected from a specific portion of the development in Roosevelt Road TIF.

Payments are scheduled through the year 2022, or the maximum obligation, whichever comes first. The obligation does not constitute a charge upon any funds of the village. In the event that future tax increments are not sufficient to pay off the obligation, the obligation terminates with no further liability to the village. Since the amount of future payments is contingent on the collection of future TIF increments, the obligation is not reported as a liability in the accompanying financial statements. The balance of the commitment outstanding at year end was \$216,978.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS

The village administers a single-employer defined benefit healthcare plan ("the Health Insurance Plan for Retired Employees"). The plan provides health insurance contributions for eligible retirees and their spouses through the village's group health insurance plan, which covers both active and retired members. Benefit provisions are established through personnel policy guidelines and state that eligible retirees and their spouses receive healthcare insurance at established contribution rates. The Retiree Health Plan does not issue a publicly available financial report.

Contribution requirements are established through personnel policy guidelines and may be amended by the action of the governing body. If an employee works for the Village for 20 years or more and is at least 50 years old at retirement, the employee is eligible to receive a \$267 monthly credit to remain on the Village's health insurance plan until age 65. The amount of the monthly insurance premium for the retiree above the \$267 credit is paid by the retiree. Additionally, the Village pays 100% of the insurance cost for disabled police and fire pension employees. Administrative costs of the plan are paid by the Village.

The village's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the village's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the village's net OPEB obligation to the Retiree Health Plan:

Annual required contribution	\$	378,950
Interest on net OPEB obligation		7,913
Adjustment to annual required contribution		<u>(5,276)</u>
Annual OPEB cost		381,587
Contributions made		<u>(72,380)</u>
Increase in net OPEB obligation (asset)		309,207
Net OPEB Obligation (Asset) - Beginning of Year		<u>260,491</u>
Net OPEB Obligation (Asset) - End of Year	\$	<u><u>569,698</u></u>

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
4/30/13	\$ 381,587	18.97%	\$ 569,698
4/30/12	216,237	52.73%	260,491
4/30/11	216,766	78.95%	158,269

The funded status of the plan as of April 30, 2012, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 5,380,604
Actuarial value of plan assets	-
Unfunded Actuarial Accrued Liability (UAAL)	\$ 5,380,604
Funded ratio (actuarial value of plan assets/AAL)	-%
Covered payroll (active plan members)	\$ 5,061,922
UAAL as a percentage of covered payroll	106%

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

VILLAGE OF BROADVIEW

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2013

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

In the April 30, 2012 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions include a 5% investment rate of return and an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 6%. Both rates include a 3% inflation assumption. The actuarial value of Retiree Health Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at April 30, 2013, was 30 years.

E. TAX INCREMENT FINANCING DISTRICT

The Village of Broadview has established several Tax Increment Redevelopment Project Areas (RPA's) to encourage redevelopment of certain sites for more market oriented commercial uses of the properties that will enhance their value and improve their contributions to the village and its surrounding areas. As part of the redevelopment plans, the village has made significant improvements to utilities, public parking, intersections, and traffic signalization, streets and landscaping. The redevelopment plans also include site preparation, land acquisition and assembly, and demolition/clearance.

Construction and development in the RPA's were the responsibility of developers and are substantially complete. To entice development of the areas, the village created tax increment financing (TIF) districts to finance public improvements made within the RPA's.

Several funds have been established to record the revenues generated in the RPA's that relate directly to servicing the debt issued to make public improvements in the RPA's.

F. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*; Statement No. 65, *Items Previously Reported as Assets and Liabilities*; Statement No. 66, *Technical Corrections - 2012 - an amendment of GASB Statements No. 10 and No. 62*; Statement No. 67, *Financial Reporting for Pension Plans - an amendment of GASB Statement No. 25*; and Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. Application of these standards may restate portions of these financial statements.
