

The Broadview Bulletin

A Village Newsletter

www.broadview-il.gov

Summer 2022

Mayor Katrina Thompson

Dear Neighbor,

Residents are out walking, biking, and picnicking. Neighbors are swapping stories over their fences. Children are playing in their yards. Gardens are blooming. Summer has arrived in Broadview.

If we are on the cusp of summer, that means the Village of Broadview has already adopted its new budget,

which runs from May 1, 2022 to April 30, 2023.

The Village Board of Trustees approved the Fiscal Year Annual Budget on April 28, 2022. The new budget is a fiscally responsible plan that will enable the Village to provide the community with high quality municipal services, such as police and fire protection, reliable and clean water, as well as host community events, such as Juneteenth.

Still, Broadview faces financial challenges, including: stabilizing the sales tax base over the long-term, increasing pension obligations, rising health care costs, funding for vehicles, equipment, and building capital improvements. The Village Board and I remain committed to conservative spending while continuing to invest in our community and providing superior services to our residents.

For example, Broadview's investments this year will include the following:

- Over \$469K in (20th, 21st and 22nd between Roosevelt and Fillmore)
- Over \$4.3M in water main improvements and alleys from 17th to 25th Avenue in the commercial district
- Over \$334K in street repairs 16th Street Paving Improvements

These investments in Broadview's infrastructure will enhance the quality of life for all residents and meet the needs of our local businesses.

Still, a community's quality of life cannot be measured by cement, bricks, and asphalt alone. A community must also invest in culture as well as concrete.

Broadview's cultural investment includes, for example, hosting our now annual Juneteenth celebration. The celebration kicked off on June 2, 2022 when Village raised the Juneteenth flag at the municipal building.

The flag is rich in symbolism.

First, the Juneteenth flag uses the exact same colors as the United State's flag: red, white, and blue. Including the red, white, and blue symbolizes that the formerly enslaved and their descendants are free Americans, too.

Second, the Arc represents a "new horizon" meaning that fresh opportunities and promising futures exist for Black Americans.

Third, the Star is a nod not only to the Lone Star State of Texas, (where Juneteenth was first celebrated on June 19, 1865 when slavery was abolished), but also it stands for the freedom of every Black American in all 50 states.

Finally, the Burst, the outline surrounding the star reflects a nova — or new star — which represents a new beginning for all.

Broadview, the first municipality in Illinois to establish an official Juneteenth village holiday, has organized a three-day – June 17, 18, and 19 – official commemoration of Juneteenth – or Freedom Day. As part of the official recognition, Broadview will provide a paid-day off on Monday, June 20, to all village employees.

Broadview's Juneteenth celebration is inclusive. Our celebration embraces all races, ethnicities, religions, and nationalities. Most important, our Juneteenth remembrance provides the opportunity for all citizens to acknowledge a period in U.S. history that has influenced and shaped today's society while recognizing that work remains to be done.

It's an exciting time in the Village of Broadview.

Sincerely,

Mayor Katrina Thompson

Be Blessed!

Administration is ready to serve the community in many ways...

Come in and pay or purchase:

Water Bill

- As of May 1, 2021, water rates have increased. All water bills are calculated in gallons for residential, commercial and industrial.

Vehicle Sticker

- Vehicle Stickers (2022-2023) were due by April 30, 2022. As of May 1, 2022, Vehicle Sticker prices have doubled.

Garbage Stickers

- Garbage Stickers are needed on all additional items. You can put out one item on your garbage pickup day. Any additional items without a sticker will not be picked up. (cost \$2)

Yard Stickers

- Yard Waste Stickers are needed for all yard waste bags (ie: grass & leaves). Make sure to place your yard waste bags out on your garbage pickup day only. (cost \$1.90)

Dog or Cat Tag

- Pet Tags are available for purchase. All dog and cats must have current rabies shot numbers to receive a 2022 Pet Tag. (cost \$25)

Overnight Parking Permit

- Know Your Zone - for more information, contact the non-emergency police at 708-345-6550 & visit Village Hall to view the zone map.

Zone 1 – Yellow

Zone 4 – Blue

Zone 2 – Pink

Zone 5 – Orange

Zone 3 – Green

Zone 6 – Red

Village Hall Business Hours

Monday: 8:30 am – 5:30 pm

Tuesday, Thursday & Friday:
8:30 am – 5:00 pm

Wednesday: 8:30 am – 2 pm

The Water Department will be open on the last Saturday of every month from 9 am – 12 pm except for November & December.

Here is the schedule for the upcoming Summer Saturdays:

June 25, 2022

July 30, 2022

August 27, 2022

September 24, 2022

Did You Know?

- The Village of Broadview has outstanding Seasonal Workers who have come back from college to work with us again for the summer. Join me in welcoming back: Timothy Caldwell (Public Works), Taylor Daniels (Building Department), & LaShae Mobley (Mayor's Office).
- The 2022 Summer Youth Work Program will begin June 13, 2022. We have eleven (13) teens (ages 14-16) who will work at the Village of Broadview and learn about local municipal government. All youth workers are Broadview residents who have been accepted and/or in high school within the township. Congratulations to All!
- COVID-19 Testing @ Village Hall every Monday – Friday from 7 am – 1 pm. To make an appointment, go to freecovidcare.com

Ways to Pay Your Water Bill

In-Person – payments can be made in person during normal Village Hall office hours:

Monday – 8:30 am – 5:30 pm

Tuesday, Thursday, Friday – 8:30 am – 5:00 pm

Wednesday – 8:30 am – 2:00 pm

Closed Saturday and Sunday

Payment Options – Acceptable payment methods are cash, check, money order, credit card, or online payment.

We accept all major credit cards: A convenience fee will be applied.

By Mail – allow five days for mailing. Mail payments to:
Village of Broadview
2350 South 25th Avenue
Broadview, IL 60155.

No Cash Payments will be accepted!

Online Payments – Pay your water bill online on the Village of Broadview's website. Go to www.broadview-il.gov. Select **Pay A Bill**, then select **Water Bill E-Pay**. You can make a one-time payment or create an account using your username and password to login. **Broadview residents: Please be aware it may take up to 3 days for a payment to be debited and posted. Account balances may not reflect recent payments.**

Drop Box – for payments and correspondence, a 24-hour depository is located in the Village parking lot at the South area of the Village Hall or in the drop box inside Village Hall. **No Cash Payments will be accepted!**

From the Desk of South Central Capital Group, LLC

The Finance Department is pleased to report that the Village had another solid year financially. The Village successfully weathered COVID-19 pandemic by carefully monitoring expenditures and supplemented decreased sales and other use tax revenues with various State and Federal Grants. As we look forward to the future, we are happy to announce the FY23 Budget was presented to the Village Board and residents, and it was approved at the April Board meeting.

The FY23 Budget continues to be a fiscally responsible financial plan that will enable the Village to continue to provide the community with high quality municipal services and special events that enhance the quality of life of all residents and meet the needs of the business community. There are a number of internal and external factors taken into account when compiling the municipal budget. Some of the issues the Village faces include long-term stability of the sales tax base, increasing pension obligations, rising health care costs, and the funding for vehicle, equipment, and building capital improvements. We will continue to evaluate our operations to make certain we are providing services to our citizens and corporate business partners as efficiently and economically as possible.

The FY20 Audit has been completed and was presented to the Village Board and the residents. The FY21 Audit is underway, and we expect that it will be completed by the end of the 1st Quarter of FY23. The Finance Department will continue to focus on the Mayor's directive of ensuring that we provide the residents with financial transparency.

Village Meetings

Mayor, Trustees & Committees meet on the 1st & 3rd Monday each month at 7:30pm.

All meetings are open to the public and are held in the Council Chambers of the Municipal Building at
2350 South 25th Avenue

Residents are encouraged to attend.

Live streaming of Village Board meetings is now available.

The Village Board typically meets the first and third Monday of the month at 7:30 p.m. Live streaming can be viewed via the Village's website at www.broadview-il.gov under the government tab, then go to Village Board, and then to Village Board Meetings. If you have questions regarding this, please contact Sobieda Sierra, Executive Assistant, at 708-681-3600.

Join us for our 3rd Annual

COMMUNITY-WIDE GARAGE SALE

Saturday, July 30th

Parking Lot on Roosevelt & 18th Ave

11:00 am—3:00 pm

Plan your weekend bargain hunting at the
Broadview Community Yard Sale.

Clean out your basement and join us as a vendor or
Stop in for great deals on items of all kinds.

For more information or to purchase a vendor space,
please contact Lily Sierra at 708-681-3600 ext. 259

Camp #WECANTOO

This year's #WECANTOO has a whole new twist!

Thursday, June 23rd from 7:30am to 4:00pm and Friday June 24th from 9:00am to noon.

Join us for two days of Girl Power! Come hear about all the amazing things girls can do to serve their community and others! We will take a field trip to different working environments where woman run non-for profit organizations to care for others.

The bus leaves at 8:00am and returns at 4:00pm.

The next day we will have a wrap up event from 9:00am to noon to create our vision boards.

Camp #WECANTOO is all about diversity and equality.

Registration is happening now.

Please RSVP to Kris Murphy at the Broadview Fire Department 708-343-6124 (dial 1).

This is a free event for Broadview Residents. \$25 to all non-residents. 50 seats available. Lunch Included on the first day.

Permission slips can be picked up at the firehouse upon registration.

Welcome...

Welcome our new Firefighter/Paramedics:

Demetrius Wade, Kamuron Akyol and Tim Kyles.

Welcome our New **Deputy Chief Matt Martin.** Deputy Chief Martin brings great experience and education in training to enhance the Broadview Fire Department

Thank You!

A big THANK YOU to Nate Odom from Country Financial Insurance for the generous \$1,500.00 Grant. This grant provided First Aid Kits for our Public Safety Babysitter Class and 50 Kitchen Fire Extinguishers that will be provided to residents at the Juneteenth Event! He also spoiled the Fire Department with a wonderful lunch! Thanks again Nate, for helping us help our community!

Special Recognition

This past Spring Kris Murphy was awarded Administrative Professional of the Year by The Illinois Fire Chief Association. Kris goes above and beyond her duties and Chief Kenny appreciates all she has done for the Fire Department.

Congratulations...

Congratulations to our new and promoted Officers **Lt Steve Schaer, Captain Pat McGivney, and Lt Dave Cohen.**

Smoke Detectors

Keep your family and summer visitors safe! We are continuing our Smoke detector program and our non-punitive home safety check. Please call our Public Education Officer Marty Scafidi for more information at 708-343-6125 (dial 4 for assistance).

Fire Explorers

We are always taking on new Fire Explorers. Young men and women ages 14-21. Summer is the perfect time for our youth to stop by and inquire about our program. Have them ask for Firefighter Dave Cohen at 708-343-6124 (dial 5 for assistance).

Our Explorers attend The Illinois Fire Safety Institute each summer for fire training. This year will be a one day camp due to COVID restrictions at the University of Illinois Campus.

Fire House Field Trip

Are you looking for something to do with the kids this summer? Are you already tired of hearing "Im Bored"? Come to the Firehouse for a field trip! Beginning June 14th until August 2nd, every Monday from 10:00am to 11:00am we will have The Firehouse Field Trip. Come see what the Firefighters and paramedics do, where they eat, where they sleep, and how we take care of our community! Please call Kris Murphy for reservations at (708)-343-6124 ext 2.

Pool Safety Tips

1. **Make Sure Rules for Pool Safety are Posted Correctly.**
2. **Teach Children How to Swim at an early age.**
3. **Check Ladders, Rails, etc. to Ensure All are Working Properly.**
4. **Put your cell phone down. Make Sure an Adult is Always Watching.**
5. **Install Self-Closing and Self-Latching Gates**
6. **Keep the Pool Area Free of Clutter.**
7. **Install a High-Quality Pool Alarm or a fitted cover that keeps children safe.**
8. **Install a Pool Safety Fence.**
9. **Have Emergency Numbers Easily Accessible. Make sure children know their address and how to dial 911.**
10. **Do you know CPR?**

In the event of a drowning, CPR can be life saving. For information on CPR classes contact Firefighter/Paramedic Tom Flannery at (708) 343-6124 (dial 13 for assistance).

Torch Run

The Law Enforcement Special Olympics' Torch Run is scheduled for Sunday, June 12th. Members of Broadview, Bellwood, Maywood, and Forest Park will be participating to raise funds for athletes.

The run begins at 25th Avenue in Broadview on Roosevelt Road into Maywood at 9th Avenue. It continues east on Roosevelt Road to Des Plaines into Forest Park. Runners continue north to Madison Street then east to Doc Ryan's for food and refreshments with the Special Olympics' Athletes.

Coffee with the Chiefs

Chief Mills & Chief Kenny continue "Coffee with the Chiefs" at local restaurants in Broadview. Their next stop is Petes II on Thursday, June 23rd. Come visit and have a cup of coffee!

Recruiting Drive

The Police Department will hold an entrance exam for the position of police officer on June 11th at the Broadview Fire Department. Registration begins promptly at 8:30 a.m.

The Police Department will hold a lieutenant promotional exam on June 25th at the Broadview Fire Department. The exam begins at 8:00 a.m. Good luck to all candidates!

Congratulations...

Official Swearing In of **Officer Patricia Scalise** took place on May 23rd. Officer Scalise is making both parents, who also work in the Village of Broadview, very proud!

Official Swearing In of **Officer Sarah Krygowski**. Officer Krygowski is in her field training stage for the next 3 months.

IKE 911 Center Telecommunicator **Melissa Paoloni** received the Life Saving Award. TCO Paoloni is in her 22nd year as a 911 telecommunicator with the Village of Broadview!

Sergeant Beata Grzymkowska is pictured with TCO Paoloni.

Officers Chapp & Solis completed their 1 year probationary period with the Village of Broadview!

Keeping the Community Safe

A retired Cook County Sheriff's Police Officer found these "BB" guns while walking near the Schroeder Park playground. They were turned into the police department.

All-Terrain Vehicles

As a reminder, it is illegal to operate all terrain vehicles, dirt bikes, and mopeds throughout the Village of Broadview.

Please refer to the Illinois Secretary of State's website and the Illinois Vehicle Code for laws operating motorized vehicles.

History Was Made...

We are thrilled to announce the 1st shift in BPD's history where female officers outnumbered male officers!

National Telecommunicator's Week

Mayor Thompson (Village of Broadview) and Mayor Booker (Village of Maywood) helped celebrate National Telecommunicator's Week at the IKE 911 Center in April.

Capital Improvement Projects

Broadview Public Works will be very busy this summer working on Capital Improvements throughout the Village. Our biggest project will be the IEPA Watermain Improvements. These improvements will consist of installing a new 8" distribution watermain within the alleys north of Roosevelt between 25th and 18th Avenues and a new 16" transmission watermain within the alleys south of Roosevelt between 16th and 10th Avenues. These deteriorated asphalt alleys will be replaced with concrete after the completion of new water lines.

Additionally, water services on 25th Avenue between Roosevelt and Harvard will be transferred to a larger water main. All lead services found while completing these improvements will be replaced with new copper water services.

The Village also plans on rehabilitating 16th Street between 17th and 13th Avenues. This project will replace the existing asphalt roadways, portions of the existing concrete curb and sidewalk, and the asphalt parking areas along the Park District building. This project has an expedited schedule to ensure completion prior to the Village's Juneteenth celebration.

Late this summer, the Village will be moving forward with the 2022 CDBG Green Alleys. This project will be funded utilizing CDBG funds and will replace the north-south alleys between 17th and 16th Avenue (south of Fillmore) and 19th and 20th Avenue (South of Harvard). These alleys will be constructed of concrete, but will have sections of permeable brick pavers to reduce the amount of stormwater that will enter the Village's combined sewer system.

Finally, this summer the final completion of the Braga Drive Corridor Improvements with the wrapping up of intersection improvements at 17th Avenue.

In addition to these three construction projects, the Village will be investigating, designing, and seeking grant funding for a variety of other projects, including:

- Replacement of the 21st Street Bridge over Addison Creek
- Installation of a Multi-Use Trail on 25th Avenue from 14th Street to the Salt Creek trail at the Village's southern limits.
- Roosevelt Road Streetscape Improvements from 17th Avenue to eastern Village Limits

PUBLIC WORKS

Capital Improvement Projects *continued*

Nicor Gas is replacing high pressured gas mains and relocating services meters from inside homes/facilities to outside.

ComEd is installing a 750KVA Transformer, Switchgear, Voltage Optimized Capacitor Bank, and 4500ft of conduit and cable to support the new assisted living building with 2 lines of service for redundancy. At the same time increasing the electrical capacity in the area for future potential growth needed in the area.

Village of Broadview Completed Our Village Wide Hydrant Flushing Program

On May 17, 2022 the Village of Broadview completed our village wide hydrant flushing program. The water department flushed (open and closed) 392 hydrants. During this process, the water department discovered 4 hydrants that were inoperable. All 4 hydrants have been replaced, the department also encountered minor maintenance issues from operating nuts needing adjustment or replacement and out flow caps needing to be lubricated.

The purpose of this program is to confirm all hydrants are in operating condition and to remove sediment that have built up from the previous year. The water department's goal is to complete this process yearly in the early spring.

Planning a Block Club Party?

Please fill out the event application. The event application is on our website at www.broadview-il.gov. In the Search bar – type in Block Party Request Form.

The event application packet should contain the following items listed below:

1. Date of Party and Time of Party
2. Estimated Attendance
3. Event description
4. Residents Signature Form

The Block Party Request form should be returned to the Village Hall – Attention: Safety Committee.

Home Repair & Construction Advice

Common Home Repair Scams

The complaints that have been received by the Office of the Illinois Attorney General demonstrate that unscrupulous home repair contractors use some common techniques to gain the confidence of homeowners. Unscrupulous contractors might tell you they have “leftovers” from a larger job and can do the repair work for you at a discount. They might attempt to frighten you by claiming that your house contains health hazards or code violations that must be fixed right away. They might claim to be a representative of your insurance company in an attempt to get you to agree to work. They might even say that your insurance policy will pay for the repairs. You might be offered a “free furnace cleaning” by a heating and cooling company as an excuse to sell you a new furnace you do not need.

HOMEOWNERS be aware when a home repair contractor:

1. Pressures you to sign papers today
2. Quotes a price and suggests that you don't need any other estimates
3. Tells you that full payment is required before starting the project
4. Comes to your home uninvited
5. Difficult to contact or can't be reached

Before You Start Your Project

Before you start your project, make sure to define the scope of the work that you are going to undertake. To define the scope of work, write down exactly what you want done in your home, so that when you talk to a contractor, you will be able to focus on what you actually need and not be sold additional or unnecessary work. You should also write down the specifications for the job. The specifications should include such factors as the timeframe in which you want the work done, the type of materials you want the contractor to use, how you intend to pay for the job, and the payment schedule for the contractor, subcontractors, and suppliers. Your list of specifications can include anything about the project that is important to you and can serve as a reference for you when you interview contractors. If you think through the scope and specifications of the project ahead of time and put your expectations in writing, you can show a contractor what you need clearly and quickly.

DURING THE SUMMER SEASON, many of us think about remodeling or renovating our homes. The projects could be renovating the kitchen, upgrading the bathrooms, building a garage, or adding an addition onto the house. Before you jump on the remodeling/renovation bandwagon, here are a few things you need to know about choosing a contractor.

continued on next page

Ordinances

Please refer to the Village of Broadview Building Code (www.broadview-il.gov) for information regarding:

Contractor Registration | 9-2-8

Any contractor or subcontractor, whether an individual, sole proprietor, partnership or corporation, performing work in the village shall not commence work until the contractor or subcontractor has first applied for and received an annual certificate of registration.

Applications for the certificate of registration shall be submitted on forms supplied by the Building department.

All applications shall be accompanied by a registration fee in the amount of one hundred dollars (\$100.00), and by proof of a bond in the minimum sum of ten thousand dollars (\$10,000.00); provided however that the following contractor shall submit proof of a bond in the sums stated in section 3-1-6 of this code: house movers; sign erectors; building wreckers.

Upon receipt of the completed application, required fee and proof of bond, the Building Commissioner shall issue the certificate.

The annual certificate shall be valid for the current calendar year of January 1 to December 31. (Ord. 09-34, 8-3-2009)

Garage Sales | 4-12-1

Requires a permit - fee (\$10.00)

Garage sales shall be permitted for not more than 3 consecutive days between the hours of 9:00 a.m. – 6:00 p.m. of each day. Not more than 3 garage sales shall be conducted in a calendar year.

Noises

4-15-4: SPECIFIC LIMITATIONS:

For the purposes of this chapter, acts declared to be excessive, loud, raucous or unnecessary noises include, but are not limited to, the following:

- A. Instruments And Sound Amplification Devices:
The playing, using, operating or permitting to be played, used or operated of any musical instrument or sound amplification device, or combination thereof, played or operated in such a manner as to disturb the peace, quiet comfort and repose of the neighboring inhabitants or at more volume than is necessary for the convenient hearing for the person or persons who are in the room, chamber, vehicle or outdoor area, within the Village limits, in which or where such instrument or sound amplification device is played, used or operated and who are voluntary listeners thereto. The

Around Town...

Home Repair & Construction Advice Continued

Finding a Contractor

1. Get at least 3 written estimates from contractors who have come to your home to evaluate what needs to be done. Be sure the estimates are based on the same scope and specifications.
2. Verify that the written contract is complete. It should consist of the work that will be done, the quality of the materials that will be used, warranties, timetables, the total price of the job, and the schedule of payments.
3. Get recommendations and check references.
4. Make sure that all contractors are licensed, insured, bonded, and registered with the Village of Broadview.
5. Contact the Village of Broadview Building Department to check for codes, permits and inspection requirements.
6. Check the contractor's complaint records at the Illinois Attorney General's Office and the Better Business Bureau.
7. If the salesperson pressures you to sign before you've had a chance to read and understand all of the contract, **DO NOT SIGN IT**. Never rely on the salesperson to read or explain the contract to you. If you do not understand the contract, ask a trusted friend or lawyer to help you. Never sign a contract that has blank spaces. Finally, be sure to get a copy of everything you sign when you sign it.
8. Before you sign a contract, make sure it contains:
 - The contractor's full name, address, and telephone number;
 - A description of the work to be performed;
 - A detailed list of all materials, including product, color, model, size, and brand name;
 - The total cost for work performed, including charges for estimates and additional labor;
 - All oral promises made by the contractor in writing;
 - A description of how change orders will be handled;
 - Starting and estimated completion dates;
 - A schedule and method of payment, including down payment, subsequent payments, and final payment;
 - Written guarantees if the contractor warrants his or her work and product.

*Remember, you have three business days to cancel any contract, if the sale is made and signed at your home. The contractor **CANNOT** take this right away from you by initiating work, selling your contract to a lender, or any other tactic. (See the Illinois Attorney General – Three Day Right To Cancel /Home Repair Contracts)*

Your 2021 Village of Broadview

Water Quality Report

Este informe contiene información muy importante sobre su agua beber.
Tradúzcalo ó hable con alguien que lo entienda bien.

This annual Water Quality Report for the period of January 1 to December 31, 2021 is intended to provide you with important information about your drinking water and the efforts made by the water system to provide safe drinking water. This year, as in years past, your tap water met all

United States Environmental Protection Agency (USEPA) and state drinking water health standards. The Village of Broadview vigilantly safeguards its water supply. This report summarizes the quality of water that we provided last year, including details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

If you have any questions about this water system, please contact our Matt Ames at 708-681-3602. We want be informed about their water quality. If more, please feel welcome to attend scheduled Village Board Meetings held Monday of every month at 2350 South

The source of drinking water used by Surface Water from Lake Michigan Chicago. Lake water is supplied to the reservoirs. The Village then pumps system. We have included with this City of Chicago pertaining to Chicago's

The Illinois EPA completed the Source Program for the City of Chicago. The a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination.

report or concerning your Director of Public Works our valued customers to you would like to learn any of our regularly on the first and third 25th Avenue at 7:00 PM.

the Village is Purchased through the City of Village's underground water into its distribution report information from the water monitoring.

Water Assessment Illinois EPA implemented

Source Water Location

The City of Chicago utilizes Lake Michigan as its source water via two water treatment plants. The Jardine Water Purification Plant serves the northern areas of the City of Chicago and suburbs, while the South Water Purification Plant serves the southern portions of the City and suburbs. Lake Michigan is the only Great Lake that is entirely contained within the United States. It borders Illinois, Indiana, Michigan and Wisconsin, and is the second largest Great Lake by volume with 1,180 cubic miles of water and third largest by area.

Susceptibility to Contamination

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment of all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and tern that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

In addition to the informational section of the Water Quality Report, we have included for your review several tables. The tables will give you a better picture of the contaminants that were detected in your water and the contaminants that were tested for but not detected.

Your 2021 Village of Broadview Water Quality Report (cont.)

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Drinking water, including bottled water may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline at (800) 426-4791.

Contaminants that may be present in source water before treatment include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, the United States Environmental Protection Agency (USEPA) prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

In order to ensure that tap water is safe to drink, the United States Environmental Protection Agency (USEPA) prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

**2021 Water Quality Data for the City of Chicago
Detected Contaminants**

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
<u>Microbial Contaminants</u>						
TURBIDITY (<0.3 NTU) Soil runoff. Lowest monthly percent limit.	n/a	TT=(Limit: 95%< 0.3NTU	Lowest Monthly % 100%	100% - 100%		
TURBIDITY (NTU) Soil runoff. Highest single measurement.	n/a	TT=1NTUmax	0.20	n/a		
<u>Inorganic Contaminants</u>						
BARIUM (pm) Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.	2	2	0.0203	0.0020 - 0.0203		
NITRATE (AS NITROGEN) (ppm)						
Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.	10	10	0.28	0.25 - 0.28		
TOTAL NITRATE & NITRITE (ppm) Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.	10	10	0.42	0.35 - 0.42		
<u>State Regulated Contaminants</u>						
FLOURIDE (ppm) Water additive which promotes strong teeth	4	4	0.77	0.65 - 0.77		
<u>Radioactive Contaminants</u>						
COMBINED RADIUM (226/228) (pCi/L) Decay of natural and man-made deposits	0	5	0.95	0.83 - 0.95		2/04/2020
GROSS ALPHA excluding radon and uranium (pCi/L) Decay of natural and man-made deposits	0	15	3.1	2.8 - 3.1		2/04/2020
<u>Unregulated Contaminants</u>						
SULFATE (ppm) Erosion of naturally occurring deposits.	n/a	n/a	27.4	26.9 - 27.4		
SODIUM (ppm) Erosion of naturally occurring deposits. Used as water softener.	n/a	n/a	9.99	9.79 - 9.99		
<u>Total Organic Carbon</u>						
TOC [TOTAL ORGANIC CARBON] The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set by the IEPA						

Water Quality Data Table Footnotes:

TURBIDITY

Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

UNREGULATED CONTAMINANTS:

A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

FLUORIDE

Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride range of 0.9 mg/l to 1.2 mg/l.

SODIUM

There is not a state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials that are concerned about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about this level of sodium in the water.

2021 Water Quality Data for the Village of Broadview

Regulated Contaminants Detected

Definitions

ALG (Action Level Goal): The level of a contaminant in drinking water below which there is no known or expected risk to health.

AL (Action Level): The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow.

Regulated Contaminants								
Disinfectants and Disinfection By-Products	Collection Date	Highest Level Detected	Range of Level Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Haloacetic Acids HAA5	2021	16	12.6 – 15.8	No goal for the total	60	Ppb	N	By-product of drinking water disinfection
Total Trihalomethanes (TTHM)	2021	39	26.2 – 39	No goal for the total	80	Ppb	N	By-product of drinking water disinfection

Coliform Bacteria						
Maximum Contaminant Level Goal	Total Coliform Maximum Contaminant Level	Highest No. of Positive	Fecal Coliform or E. Coli Maximum Contaminant Level	Total No. of Positive E. Coli or Fecal Coliform Samples	Violation	Likely Source of Contamination
0	0 positive monthly sample	0	0	0	N	Naturally present in the environment

Lead and Copper								
Lead and Copper	Date Sampled	MCLG	Action Level (AL)	90 th Percentile	#Sites over AL	Units	Violation	Likely Source of Contamination
Lead	2021	0	15	6.16	0	Ppb	N	Corrosion of household plumbing system Erosion of natural deposits.

Not all samples results may have been used for calculating the Highest Level Detected because some results may be part of an evaluation to determine where compliance sampling should be done in the future.

Water Quality Test Results

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the Maximum Contaminant Level Goal as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL): The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of disinfectant in drinking water below which there is no known or expected risk to health. MRDLG's do not reflect the health benefits of the use of disinfectants to control microbial contaminants.

MCLG (Maximum Contaminant Level Goal): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Definitions: The preceding tables contain scientific terms and measures, some of which may require explanation.

ppm: milligrams per liter or parts per million—or one ounce in 7350 gallons of water.

ppb: micrograms per liter or parts per billion—or one ounce in 7,350,000 gallons of water.

n/a: not applicable.

Avg. Regulatory compliance with some MCLs are based on running annual average of monthly samples.

Water Quality Data

Definition of Terms Used

● **Maximum Contaminant Level Goal (MCLG):** The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

● **nd:** Not detectable at testing limits.

● **n/a:** Not applicable

● **Maximum Contaminant Level (MCL):** The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the MCLG's as feasible using the best available treatment technology.

● **Level Found:** This column represents an average of sample result data collected during the CCR calendar year. In some cases, it may represent a single sample if only one sample was collected.

● **Range of Detection:** This column represents a range of individual sample results; from lowest to highest that were collected during the CCR calendar year.

● **Date of Sample:** If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the CCR calendar year.

● **Action Level (AL):** The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

● **Treatment Technique (TT):** A required process intended to reduce the level of a contaminant in drinking water.

Unit of Measurement;

- ppm - Parts per million, or milligrams per liter
- ppb - Parts per billion, or micrograms per liter
- NTU - Nephelometric Turbidity Unit, used to measure cloudiness in drinking water
- %<0.5 NTU - Percent samples less than 0.5 NTU
- pCi/l - picoCuries per liter (measurement of radioactivity)
- ppt - Parts per trillion

CITY OF CHICAGO 2021 VIOLATION SUMMARY

We are pleased to announce that no monitoring, reporting, treatment technique, maximum residual disinfectant level, or maximum contaminant level violations were recorded during 2021.

VILLAGE OF BROADVIEW 2021 VIOLATION SUMMARY

We are pleased to announce that no monitoring, reporting, treatment technique, maximum residual disinfectant level or maximum contaminant level violations were recorded during 2021.

Early Voting

For the June 28, 2022 Gubernatorial Primary Election, traditional Early Voting will take place **June 13 – 27**.

As a reminder, voters who participate in Early Voting must vote in person.

Election Day Voting

JUNE 28, 2022

Registered suburban Cook County voters can only vote in their home precinct on Election Day.

Residents who are not registered to vote may register and cast a ballot on Election Day thanks to same-day registration and voting. Those who wish to register on Election Day must present two qualifying forms of ID.

Registered and unregistered Cook County residents can find their assigned polling place with the Your Voter Information | Cook County Clerk (cookcountyclerk.gov).

Calendar of Events

JUNE

- June 13:** Law Enforcement Torch Run
- June 17:** Broadview Firehouse Field Trips
10 a.m. - 11 a.m.
Every Monday until August 2, 2022
Broadview Fire Department
- June 16:** Broadview Police Department Story Time
10 a.m. | God's Little Gifts Day Care
- June 17:** Juneteenth Celebration
Community Meet & Greet
6 - 9 p.m. | Schroeder Park
- June 18:** Juneteenth Celebration
11 a.m. - 8 p.m. | Schroeder Park
- June 19:** Juneteenth Celebration
Celebrate Freedom Fireworks Show
11 a.m. - 9:30 p.m. | Schroeder Park
Father's Day
- June 21:** Summer Begins
- June 23-24:** 5th Annual #WECANTOO Girl Camp (Ages 10+)
Broadview Fire Department
- June 28:** Election Day - VOTE!
Broadview Police Department Drawing Cartoons
4 - 5 p.m. | Broadview Public Library

JULY

- July 4:** Independence Day
Village Offices will be Closed
- July 18:** Broadview Police Department Story Time
10 a.m. | God's Little Gifts Day Care
- July 18:** Broadview Police Department Teen Advisory Talk
6:35 - 7:05 p.m. | Broadview Public Library
This event may take place via Zoom with BPD in attendance.
- July 26:** Broadview Police Department Drawing Cartoons
4 - 5 p.m. | Broadview Public Library
- July 30:** Community-Wide Garage Sale
11 a.m. - 3 p.m.
Parking lot on Roosevelt Rd. & 18th Ave.

AUGUST

- August 2:** National Night Out
Broadview Police Department
5 p.m. | Schroeder Park
- August 19:** Cops on Top/Donuts on the Roof
5 a.m. - Noon | Dunkin Donuts
1940 Roosevelt Rd.

AUGUST

- August 25:** Broadview Police Department Teen Advisory Talk
6:35 - 7:05 p.m. | Broadview Public Library
This event may take place via Zoom with BPD in attendance.
- August 30:** Broadview Police Department Drawing Cartoons
4 - 5 p.m. | Broadview Public Library

SEPTEMBER

- September 11:** National Grandparents Day
National Day of Service & Remembrance
Sunday, September 11, 2022
September 11th is Patriot Day and a National Day of Service and Remembrance. On this day Americans across the country are called to volunteer in their local communities in tribute to the individuals lost and injured in the attacks, first responders, and the many who have risen in service to defend freedom.

- September 22:** Autumn Begins

OCTOBER

- October 1:** Tour de Proviso
Village of Riverside

Bike & Walk with the Mayor

Bike every Saturday at 9 a.m. | Meet at Lindop School parking lot.

Walk every Sunday at 8:30 a.m. | Meet at the Salt Creek Trail in North Riverside just past Cermak Road.

Congratulations!

Class
of **2022**
